VORES FILOSOFI

Nøglen til vores kunders succes er at kombinere produkter af høj kvalitet med velorganiseret leveringslogistik – i et tæt samarbejde.

OM OS

I Asmet-Gruppen er kerneforretningen produktion og distribution af befæstigelselementer. Vi tilbyder både standard- og specialprodukter skræddersyet til landbrugsmaskiner og -udstyr. Desuden leverer vi til maskin-, energi-, petrokemi- og bilindustrien, til byggeri – især til stålkonstruktioner og til offshore-sektorerne. Kvalitet, produkttilgængelighed og rettidig levering er i højsædet hos os.

Stabiliteten af vores forsyningskæde sikres af:

- et topmoderne distributionscenter med 40.000 sortimentsvarer og i alt 25.000 tons varer på lager,
- tre egne produktionsanlæg,
- et galvaniseringsanlæg,
- kontrol- og målelaboratorier,
- en base af kvalificerede leverandører af varer og materialer.

OUR PHILOSOPHY

The key to our customers' success is to combine high-quality products with well-organized delivery logistics - in a close cooperation.

ABOUT US

The core business of the companies within the ASMET Group is the production and distribution of fasteners. We offer both standard and special products tailored to the machine industry, including the agricultural machinery and equipment sector, as well as the energy, petrochemical, automotive industries, construction, especially the steel structures and offshore sectors.

Since the beginning of our operations, we have focused on the quality of the fasteners we deliver, product availability, and timely order fulfillment. We operate in accordance with the requirements of quality management systems according to PN-EN ISO 9001:2015 and environmental management according to PN-EN ISO 14001:2015.

The stability of our supply chain is ensured by: a modern distribution center (inventory: 40,000 assortment items and 25,000 tons of goods), three in-house production plants, a galvanizing plant, control and measurement laboratories, and a base of qualified suppliers of goods and materials.

Vores produktion udføres med ved hjælp af specielle, multi-operationelle boltfremstillingsmaskiner og af CNC-maskiner til specialemner.

Vores råmaterialer og overfladebelægninger er af høj kvalitet, og de er fremstillet med teknologier, der er godkendt af alle større kunder verden over.

KVALITET

Vi arbejder i overensstemmelse med kravene til kvalitetsstyringsystemer i henhold til PN-EN ISO 9001 og miljøstyring i henhold til PN-EN ISO 14001.

I vores interne kvalitetslaboratorier udfører vi kontinuerlige tests og -inspektioner af vores fremstillede produkter, herunder metallografiske, styrke-, dimensions- og korrosionsbestandighedstests.

Vores erfarne ingeniører og teknikere overvåger alle processer.

ERFARING I LANDBRUGSSEKTOREN

Vi har været til stede i landbrugsindustrien både herhjemme og internationalt gennem mange år, og vi har gennem årene leveret en bred vifte af befæstigelselementer til landbrugsmaskiner og landbrugsudstyr.

Our production is carried out using CNC machines for machining and modern, multi-operational Bolt Making Machines for cold forming. Our laboratories are equipped to conduct internal testing and inspection of manufactured products, including metallographic, strength, dimensional, and corrosion resistance tests. Experienced engineers and technicians oversee all processes.

EXPERIENCE IN THE AGRICULTURAL SECTOR

We have been present in the agricultural industry both domestically and internationally for several decades, supplying a wide range of fasteners for agricultural machinery and equipment. Our products are delivered to the assembly lines of leading manufacturers of tractors, combines, trailers, seeders, and other machines in countries such as Poland, Denmark, Germany, Austria, Belgium, the United Kingdom, as well as in both Americas. The offered fasteners include mainly standard hex bolts and nuts, regular and oversized washers, cotter pins, plow bolts, cup head square neck bolts, flange bolts of the VERBUS RIPP type, and rivets. Besides standard components, we also undertake special projects based on customer drawings and specifications.

The high-quality materials and coatings we use, made with technology acceptable to all major customers worldwide, ensure the safe and efficient operation of the entire machine.

Vores produkter leveres til servicecentre og direkte til samlebånd hos store producenter af traktorer, mejetærskere, vogne, såmaskiner og andre maskiner i lande som Danmark, Polen, Tyskland, Østrig, Belgien, Storbritannien og Nord- og Sydamerika.

Vores befæstigelselementer omfatter hovedsageligt:

- standard sekskantede bolte og -møtrikker,
- standard- og overdimensionerede spændeskiver,
- splittappe,
- plovbolte,
- radrenserbolte,
- bræddebolte,
- flangebolte af Verbus Ripp-typen,
- nitter.

Udover standardkomponenter udfører vi også specialopgaver baseret på kundetegninger og -specifikationer. Bare spørg os!

MATERIALER

Vi tilbyder produkter fremstillet af kulstofstål i mekaniske egenskabsklasser: 4.6, 4.8, 5.6, 5.8, 8.8, 10.9, 12.9, samt af rustfast stål A2 og syrefast stål A4.

Vi fremstiller også specialprodukter af andre materialer:

- stål til højtemperaturapplikationer,
- varmebestandigt stål,
- korrosionsbestandigt stål,
- kulstof- og legeringsstål – herunder stål til nitrering og karburering,
- ikke-jernholdige legeringer: Kobber, messing, bronze, titanium.

LOGISTIK

Med vores mange års erfaring i produktion og -distribution forstår vi, at nøglen til vores kunders succes er at kombinere produkter af høj kvalitet med velorganiseret leveringslogistik – i et tæt samarbejde.

Vi leverer produkter til enhver lokation på meget kort tid. I over 20 år har vi leveret direkte til vores kunders samlebånd ved hjælp af forskellige Just-In-Time og Kanban systemer. Vi overvåger kundernes behov og leverer produkterne præcist til tiden og til det rigtige sted i produktionsprocessen. Dette giver vores kunder mulighed for at væsentligt reducere den tid og de omkostninger, der bruges på at håndtere processen med at bestille-, modtage- og udstede varer fra lageret.

Vi sikrer leveringssikkerheden ved at bruge vores egen flåde af biler og ved at samarbejde med pålidelige, internationale transportvirksomheder. Takket være dette har vi oparbejdet et ry som en pålidelig- og troværdig leverandør og har med stor succes deltaget i projekter verden over.

MATERIALS

We offer products made of steel in mechanical property classes: 4.6, 4.8, 5.6, 5.8, 8.8, 10.9, 12.9, as well as products made of stainless steel A2 and acid-resistant A4.

We also manufacture special products from other materials:

- steel for high-temperature applications,
- corrosion-resistant steels,
- heat-resistant steels,
- carbon and alloy steels, including steel for nitriding and carburizing,
- non-ferrous alloys: copper, brass, bronze, titanium.

PROTECTIVE COATINGS

We supply fasteners with protective coatings:

- zinc (Zn) electrolytic coatings, according to PN-EN ISO 4042, PN EN ISO 2081, PN-EN 12329, with thin or thick-layer passivation, in blue, silver, black, yellow colors without hexavalent chromium, with a standard thickness of 6-10 microns or above 10 microns depending on individual customer needs,
- zinc-nickel (ZnNi) electrolytic coatings,
- zinc coatings by dipping method (hot-dip galvanizing), according to PN-EN ISO 1461, PN-EN ISO 10684,
- zinc flake coatings (flZn), according to PN-EN ISO 10683, types Geomet, Zintek, Magni, Dacromet, Delta Protekt,
- other coatings as per agreements.

These coatings are also available with an additional sealing layer, which increases the corrosion resistance of the products up to 1000 hours in a salt spray chamber, as well as with a top layer with the required coefficient of friction.

LOGISTICS

With many years of experience in production and distribution, we understand that the key to success is combining high-quality products with well-organized delivery logistics. We undertake numerous activities aimed at delivering products to any location in the country and abroad in a very short time. For over 20 years, we have been making deliveries directly to assembly lines using various Just-In-Time (Kanban) system variants. We monitor customer needs and deliver products precisely on time and to the right place in the production process. This allows our customers to reduce the time needed to handle the process of receiving and issuing goods from the warehouse and to cut costs associated with purchases.

We ensure the security of deliveries by using our own fleet of vehicles and cooperating exclusively with reliable international shipping companies. Thanks to this, we have earned a reputation as a reliable and trustworthy supplier and have successfully participated in projects worldwide.

DETTE GØR OS UNIKKE

- vores egne produktionsfaciliteter: Tre produktionsanlæg beliggende i Europa,
- moderne kvalitetskontrol- og målelaboratorier,
- et meget bredt sortiment – vi tilbyder 80.000 varer, herunder mere end 40.000 tilgængelige direkte fra lager,
- 25.000 tons produkter kontinuerligt på lager,
- en erfaren- og specialuddannet stab af ingeniører og teknisk personale,
- mange års brancheerfaring,
- kanban-leverancer direkte til vores kunders samleband, skræddersyet til det aktuelle forbrug,
- konstant forbedrede teknologiske løsninger,
- et netværk af vores egne detailbutikker, fortrinsvis i Polen.

Et samarbejde med ASMET-Gruppen garanterer professionel- og omfattende service. Gennem vores medarbejdere tilbyder vi vores viden og erfaring inden for befæstigelselementer – og vores kontinuerlige støtte til at vælge- og drive optimale logistiske løsninger.

Vi inviterer dig til at samarbejde med os – slut dig til gruppen af 60.000 tilfredse kunder!

WHAT MAKES US UNIQUE

- our own production facilities: three production plants located in Europe,
- modern control and measurement laboratories,
- a wide range of assortment, we offer 80,000 items including more than 40,000 available off-the-shelf,
- 25,000 tons of products in our own warehouses,
- a qualified engineering and technical staff,
- many years of industry experience,
- deliveries to assembly lines tailored to current consumption,
- constantly improved technological solutions,
- a network of our own retail stores.

Cooperating with ASMET Group guarantees professional and comprehensive service. Our employees offer their knowledge and experience in threaded connections and support in selecting optimal logistical solutions.

We invite you to cooperate with us! Join the group of 60,000 satisfied customers of the ASMET GROUP!
